Personal Details

Date of birth	3rd October
Sex	Male
Place and Country of Birth	Accra, Ghana
Nationality	Ghanaian
Marital Status	Single

Profile

I am a highly competent mobile application software developer with a track record in developing immersive and creative software using a variety of technology. The task of developing internationally applicable and enterprising IT strategies while using cutting-edge technology motivates me. The Flutter framework happens to be one that enthralls me.

Education

Valley View University (VVU) **BSc, Computer Science**	**2015 –2019**
Tema Secondary School (**General Science, WASCE**)	**2012 –2015**
De Youngster's International School (**BASIC**)	**2009 –2012**
De Youngster's International School (**ELEMENTARY**)	**2007 -2009**

Technical Competencies/Knowledge/Skills

Software Languages: Flutter(dart), Android (Java, Kotlin), C#, HTML, CSS

Datastores: Mysql, MongoDB, Firebase

Deployment: Gitlab-CI, Git, Google Cloud

Others: Slack Integrations, Trello, Sentry, Microsoft word and excel, REST API

Work Experience

Swys, New York, NY 75201.
Mobile Software Engineer, July 2021 – current(Full-TIme- Remote)

Development of Cafecito App (Cafecito) on PlayStore and (Cafecito) on Apple Store to engaged multicultural listeners, allowing both to flourish and flaunt their niche. With 24/7 Spanish support, we are connecting US Hispanic digital users with popular Spanish Language entertainment personalities.

Development of MyFrsh Mobile Application (MyFrsh) on PlayStore and (MyFrsh) on Apple Store to provides all users ACCESS to all the financial tools and technology that everyone else takes for granted. MyFrsh is a financial technology company, not a bank. Banking services are provided by the Metropolitan Commercial Bank of New York MCB. Members of the FDIC.

Development of flutter plugin ([deposits_ecommerce](#)) on flutters data source for plugins. The purpose of this ecommerce plugin/SDK is for allowing creators to setup and operate an online store without owning an e-commerce website. Empowering vendors to launch commerce feature without the engineering time at less the cost of building commerce capabilities internally. Shoppers can view products and checkout one item at a time from each vendor's store without leaving the application .

Development of flutter plugin ([deposits_oneclick_checkout](#)) on flutters data source for plugins. This Deposits One-Click Checkout SDK allows allows merchants to quickly enroll, onboard, and checkout customers. We provide powerful and customizable UI screens that can be used out-of-the-box to collect payments from your users with or without a deposit account

Continuous Software Documentation, Updates. Maintenance and Deployment.

Viuhealth, 101 6th, 3rd Floor, New York, NY 10013
